HAVE YOU RECENTLY HAD YOUR COVID 19 VACCINATION?

***Have you recently had your COVID-19 vaccination?
If so, in the past two weeks?***

Depending on the nature of your treatment we would like to reschedule your appointment to ensure that we have a two week period between your treatment and your vaccination.

The reason for the two week timeframe is to wait for any potential symptoms from the vaccine to subside; not everyone experiences noticeable symptoms after vaccination, but your body will typically have some type of inflammatory response to this and this could be a direct contraindication to performing and obtaining the best result for you.
